

MUSTAFA IRSHAID

Front-End Web Developer

@ mustafa.irshaid.113@gmail.com +970 595 829020 Palestine ,Nablus in LinkedIn Github

OBJECTIVE

- Front-end web development intern with expertise in React JS mainly, aiming enhance my skills within an effective team work environment and new challenges to overcome.

EXPERIENCE

Stage co-working space

Volunteer | Front-End Web

- Jan – Feb / 2023 Repository in Post
- Developed a custom website for Stage Company using HTML, CSS, Bootstrap and JS.
 - Collaborated with the client to understand their requirements and delivered a responsive and user-friendly website that met all project goals.
 - Improved teamwork skills through real-world project implementation.

PROJECTS

Sarahah Project

Developing Sarahah website using React JS

- Feb – Mar / 2023 Repository in Post
- Implemented authentication and reset password functionalities.
 - Incorporated data pagination for efficient utilization better user experience.
 - Utilized Joi validation to ensure that forms entered by users are valid, and prevent any potential data breaches or errors caused by incorrect user input.

CRUD System

Web Application

- Jan / 2023 Repository in Post
- Built a Crud System to Add, Delete and Update data by using JS.
 - Dealt with temporary local storage and used RegEx for validation.
 - Worked with npm to manage packages, such as Bootstrap5 and SweetAlert2.

Landing Pages

Website Cloning

- Oct / 2022 Repository in Post
- After cloning three different projects, I've picked a random page from Bootstrap5 themes and built it using only HTML5,CSS3 and JS.
